

Air University (Islamabad) – Comprehensive Admissions Report

Undergraduate, MS/MPhil/MBA, and PhD admissions: programs offered, eligibility, process, documents, scholarships, and key dates.

Report date: 24 December 2025

This report consolidates publicly available admissions information from official Air University web pages and linked PDFs. Admissions policies and program offerings can change by intake; always confirm against the latest official AU announcements and portal notifications.

Key highlights

- **Total programs listed (Fall 2025 fee structure):** 91 (UG: 37, Graduate: 35, PhD: 18, Associate: 1).
- **Main admissions intakes:** Typically Spring and Fall.
- **Application method:** Online via AU admissions portals (campus-specific).
- **Testing:** Undergraduate admission test; graduate applicants typically submit AU-GAT / NTS-GAT / HEC HAT / GRE (program-specific).

1. Campuses and Admission Portals

Air University runs admissions through campus-specific online portals. Applicants should start by selecting the intended campus and then completing the online application on that campus portal.

Campus	Admissions portal (official)
Islamabad Main Campus	https://portals.au.edu.pk/admissions/
Aerospace & Aviation Campus (A&AC;), Kamra	https://aack.au.edu.pk/admissions/
Multan Campus	https://multan.au.edu.pk/admissions/
Kharian Campus	https://kc.au.edu.pk/admissions/
Karachi Campus	https://khi.au.edu.pk/admissions/

1.1 Typical admissions workflow (high level)

- 1 Create an account and start a new application on the relevant campus portal.
- 2 Select the program(s) and study mode (where offered: morning/evening/weekend).
- 3 Enter personal and academic information; upload scanned documents requested by the portal.
- 4 Pay the application processing charges / test fee (if applicable) using the instructions generated by the portal.
- 5 Download/print the admit card (if an admission test is required) and appear in the test.
- 6 Check merit lists and portal updates; if selected, deposit dues by the deadline to secure the seat.
- 7 Submit hard-copy documents to the admissions office if/when required (program/campus instructions may vary).

2. Admissions Calendar and Key Dates

Air University typically offers admissions in two main intakes (Spring and Fall). Each intake follows a published schedule with deadlines for online application, admission tests, merit lists, and fee submission.

2.1 Spring 2026 intake – key milestones (from AU schedule PDF)

Activity	Date
Online application submission deadline	23 Dec 2025
Admission test date	27 Dec 2025
Final merit list	29 Dec 2025
Fee submission deadline (for final merit list)	02 Jan 2026
Announcement of 2nd merit list	05 Jan 2026

Note: The official Spring 2026 schedule PDF contains additional post-merit activities (e.g., further merit lists, orientation/class commencement). Always consult the latest schedule posted on AU admissions pages.

2.2 Late admissions

AU states that late admissions are generally **not entertained** and that it follows the published schedule; the university also reserves the right to refuse admission. Applicants should plan to meet all deadlines.

3. Programs Offered and Departments

The program lists below are compiled from the official AU fee structure (Fall 2025) which enumerates programs and their fee categories by faculty. Programs may not be offered in every intake or on every campus; applicants should confirm availability in the admissions portal/advertisement for the intended semester.

3.1 Program inventory summary (Fall 2025 fee structure)

Program level	# Programs (from fee structure)
Associate Degree	1
Undergraduate	37
Graduate (MS/MPhil/MBA)	35
Doctoral (PhD)	18

3.2 Faculties/schools covered in the program list

Faculty/School/Unit	# Programs
Faculty of Computing & Artificial Intelligence	19
Faculty of Administrative Sciences (AUSOM)	16
Faculty of Engineering	13
Faculty of Social Sciences	13
Institute of Avionics & Aeronautics	9
National Cyber Security Academy (NCSA)	8
Faculty of Basic & Applied Sciences	7
Faculty of Aerospace & Strategic Studies	5
School of Law	1

3.3 Associate degree programs

Faculty/School/Unit	Programs (as listed in fee structure)
Faculty of Computing & Artificial Intelligence	• Associate Degree Program (Computer Science)

3.4 Undergraduate programs

Faculty/School/Unit	Programs (as listed in fee structure)
Faculty of Administrative Sciences (AUSOM)	• BBA (Hons) • BS Accounting & Finance • BS Aviation Management • BS Business & Information Technology • BS Business Analytics • BS Financial Technologies • BS Healthcare Management • BS Tourism And Hospitality Management
Faculty of Aerospace & Strategic Studies	• BS International Relations • BS Security Studies
Faculty of Basic & Applied Sciences	• BS Computational Mathematics with Data Analytics • BS Computational Physics
Faculty of Computing & Artificial Intelligence	• BS Artificial Intelligence • BS Bio Informatics • BS Computer Games Development • BS Computer Science • BS Data Science • BS Information Technology • BS Software Engineering (Non-PEC)
Faculty of Engineering	• BE Bio-Medical Engineering • BE Electrical Engineering (Electric Vehicles) • BE Electrical Engineering (Electronics) • BE Electrical Engineering (Power) • BE Electrical Engineering (Telecom) • BE Mechatronic Engineering • Bachelor of Computer Engineering • Bachelor of Software Engineering (PEC)
Faculty of Social Sciences	• BS Communication & Media Studies • BS English • BS Psychology • Bachelor in Education
Institute of Avionics & Aeronautics	• BE Mechanical Engineering
National Cyber Security Academy (NCSA)	• BS Cyber Forensic & Security • BS Cyber Psychology • BS Cyber Security • BS Embedded System Security
School of Law	• Bachelor of Laws

3.5 Graduate programs (MS/MPhil/MBA)

Faculty/School/Unit	Programs (as listed in fee structure)
Faculty of Administrative Sciences (AUSOM)	• MBA 2-Year • MS Business Analytics • MS Finance • MS Management Sciences • MS Operations & Supply Chain Management • MS Project Management
Faculty of Aerospace & Strategic Studies	• MS International Relations & Security Studies • MS Strategic Studies
Faculty of Basic & Applied Sciences	• MS Applied Physics • MS Mathematics • MS Statistics and Data Analytical Science
Faculty of Computing & Artificial Intelligence	• MS Artificial Intelligence • MS Computer Games Development • MS Computer Networks • MS Computer Science • MS Data Science • MS Software Engineering • MS Systems Security
Faculty of Engineering	• MS Bio-Medical Engineering • MS Electrical Engineering • MS Mechatronics Engineering
Faculty of Social Sciences	• M.Phil. Literature • M.Phil. TESOL • M.Phil. in Education • MS Clinical Psychology • MS Cyber Psychology • MS/M.Phil. in Linguistics • MS/MPhil. Linguistics and Literature
Institute of Avionics & Aeronautics	• MS Aerospace Engineering • MS Avionics Engineering • MS Information Security • MS Mechanical Engineering
National Cyber Security Academy (NCSA)	• MS Cryptology • MS Cyber Security • MS Digital Forensics

3.6 Doctoral programs (PhD)

Faculty/School/Unit	Programs (as listed in fee structure)
Faculty of Administrative Sciences (AUSOM)	• PhD Management Sciences • PhD Project Management
Faculty of Aerospace & Strategic Studies	• PhD Strategic Studies
Faculty of Basic & Applied Sciences	• PhD in Mathematics • PhD in Physics
Faculty of Computing & Artificial Intelligence	• PhD Artificial Intelligence • PhD in Computer Science • PhD in Data Science • PhD in Software Engineering
Faculty of Engineering	• PhD Electrical Engineering • PhD Mechatronics Engineering
Faculty of Social Sciences	• PhD Linguistics and Literature • PhD in Linguistics
Institute of Avionics & Aeronautics	• PhD Aerospace Engineering • PhD Avionics Engineering • PhD Information Security • PhD Mechanical Engineering
National Cyber Security Academy (NCSA)	• PhD Cyber Security

4. Eligibility Criteria and Admission Requirements

Air University publishes detailed eligibility criteria program-by-program. Below is a consolidated view of the most frequently repeated requirements and major program categories, plus selected eligibility snapshots. Applicants should always check the official eligibility criteria for the target program (as requirements can differ).

4.1 General rules and notes appearing across programs

- Minimum marks/CGPA requirements are treated as **absolute** (for example, 49.9% is not considered 50%).
- Candidates with foreign/O-Level/A-Level qualifications typically need an **IBCC equivalence certificate** where applicable.
- Result-awaiting candidates may be given provisional admission but must meet eligibility requirements before final admission.
- Partial pass/compartments cases are generally not eligible where explicitly stated in program criteria (especially in engineering).
- Admission is offered based on position in the merit list after meeting test/academic requirements.

4.2 Eligibility snapshots (selected examples)

Program / category	Key requirements (summary)
Associate Degree (Computer Science) – Evening	Intermediate/HSSC (Pre-Med / Pre-Eng / ICS or equivalent) with minimum 50%; evening timing (approx. 3:30pm–8:00pm); admission test as applicable.
BE Electrical Engineering (and other BE programs – pattern)	HSSC Pre-Engineering (Physics, Chemistry, Mathematics) with minimum 60% (some criteria also mention ICS with Physics/Math/CS with Chemistry deficiency). Engineering entry test passing marks reference PEC minimum 33%; admission offered on merit.
BS Computer Science / BS Information Technology (computing programs – pattern)	HSSC with Mathematics with minimum 50%; Pre-Medical may be accepted with Mathematics deficiency courses (6 credit hours) during the degree; admission test.
BS English	Intermediate/HSSC or equivalent with minimum 50% overall and a referenced minimum in the English subject (55%); admission test.
MS programs (typical)	16-year education from HEC-recognized institution; minimum CGPA 2.0/4.0 (or equivalent). Test: NTS GAT(General) / HEC HAT (minimum 50) or GRE(General) with minimum component scores; merit formula referenced as 50% terminal degree + 50% test.
MBA (2 years)	16-year education in any discipline with minimum CGPA 2.0/4.0 (or equivalent); admission test and interview as part of selection.
PhD programs (typical)	18-year MS/MPhil (or equivalent) with minimum CGPA 3.0/4.0 (or equivalent). Entry test options referenced: AU-GAT (Subject) $\geq 70\%$ OR NTS-GAT (Subject) $\geq 60\%$ OR GRE(General) minimum 300 (with minimum Q/V/AW components); interview for final selection; some programs explicitly require SOP/research proposal.

4.3 Summary by program level (common patterns)

- **Most BS/BBA/BS programs:** Intermediate/HSSC (12 years) or equivalent with minimum marks (commonly 50%); admission test as required.
- **Engineering (BE) programs:** HSSC Pre-Engineering (Physics, Chemistry, Mathematics) or equivalent; programs may allow ICS background with additional Chemistry deficiency course; minimum marks requirement for engineering is commonly higher (e.g., 60%). Engineering entry test passing marks are aligned with PEC guidance (minimum 33% is referenced).

- **Computing/IT and related programs:** HSSC with Mathematics is commonly required; in some cases Pre-Medical is accepted with completion of Mathematics deficiency courses during the degree.
- **Program-specific subject requirements:** Some programs specify subject minimums (e.g., BS English references an English-subject minimum).
- Applicants generally need **16 years of education** (e.g., BS/BE or equivalent) from an HEC-recognized university/institute.
- A minimum **CGPA 2.0/4.0** (or equivalent percentage) is frequently cited across MS programs.
- Many programs require a valid **NTS GAT (General)** / **HEC HAT** score (minimum 50 is referenced) or **GRE (General)** with minimum component scores (Quantitative 151, Verbal 145, Analytical Writing 3.5/6.0 are referenced) before admission.
- For several MS programs, AU describes a merit formula of: **50% terminal degree + 50% test**.
- The MBA (2 years) admission criteria highlight an AU admission test and interview as part of selection, in addition to the academic requirement.
- Applicants generally need an **18-year MS/MPhil (or equivalent)** degree in a relevant field from an HEC-recognized university/institute.
- A minimum **CGPA 3.0/4.0** (or equivalent percentage) is referenced as the baseline requirement.
- Entry testing: AU references options such as **AU-GAT (Subject) $\geq 70\%$** , **NTS-GAT (Subject) $\geq 60\%$** , or **GRE (General) minimum 300** (Quantitative 155, Verbal 145, Analytical Writing 3.5/6.0).
- Interviews are commonly part of final selection; some programs also explicitly require a **statement of purpose/research proposal**.
- Intradisciplinary candidates may be admitted with a **zero semester** to clear deficiency courses (9–12 credit hours), as determined by the department/admission committee.

5. Documents Checklist (Online Application and Admission File)

AU's admissions pages list documents required in hard form (for submission after selection) and scanned copies required during online application. Exact submission requirements can vary by campus/program; the list below reflects the general checklist published by AU.

- Passport-size photographs (two are referenced).
- CNIC / Form-B or Passport (as applicable).
- Academic degrees / certificates (e.g., SSC, HSSC, and for graduate admissions: Bachelor/Master transcripts).
- Domicile certificate.
- No Objection Certificate (NOC) from the organization (for serving armed forces/civil employees, where applicable).
- Original admission fee challan and copy of paid fee challan (where applicable).
- Medical fitness certificate.
- Undertaking form (as required by AU).
- Equivalence certificate for foreign/O/A-Level qualifications (IBCC, where applicable).
- Disability certificate (if applying under disability category, where applicable).

6. Fees, Allied Charges, and Seat Confirmation

In addition to per-credit-hour tuition (which varies by program and faculty), AU lists a set of common one-time or per-semester charges. These are typically required at application submission or at the time of admission/registration.

Item	Amount (PKR)
Admission application processing charges (one-time; at application)	PKR 2,500
GAT (Gen/Sub) fee (one-time; if applicable)	PKR 1,800
Admission fee (one-time; at admission)	PKR 20,000
Endowment fund (one-time; at admission)	PKR 5,000
Miscellaneous charges (per semester)	PKR 6,000
Security deposit (one-time; refundable after clearance)	PKR 10,000

Important: Fees and charges are intake-dependent and can be revised. Always verify the latest fee structure for the target semester and campus.

6.1 Merit lists and fee deadlines

After tests (where applicable), AU publishes merit lists. Applicants who are offered admission must deposit the required fees within the stated deadline to confirm the seat. Failure to pay by the deadline can lead to loss of the offered seat.

6.2 Transfer students (overview)

AU maintains a Transfer Students / Credit Transfer policy page. Transfer and credit-transfer requests (if entertained) typically require eligibility compliance and evaluation of prior coursework by the relevant department. Applicants considering transfer should consult the official Transfer Students guidance for their intended program and campus.

7. Scholarships and Financial Assistance

Air University publishes a Merit Scholarship Policy that describes tuition waivers for position holders and high-performing students in undergraduate and MS/MPhil programs. The details below summarize key points referenced in that policy.

7.1 Merit Scholarship Policy – Undergraduate (as described in AU policy)

- Fee waiver for top-3 position holders per class/section (50%, 40%, 30% tuition waiver).
- Within top-3, SGPA 4.0 is described as 100% tuition waiver.
- Eligibility includes maintaining SGPA ≥ 3.5 and a full study load.
- No merit scholarship in summer semester (as described).
- Disciplinary punishment disqualifies for the next semester; graduating batch is not awarded (as described).

7.2 Merit Scholarship Policy – MS/MPhil (as described in AU policy)

- Position-holder tuition waivers (35%, 30%, 25% tuition waiver).
- Within top-3, SGPA 4.0 is described as 50% tuition waiver.
- Eligibility includes maintaining SGPA ≥ 3.75 .
- Policy notes exclusions in summer semester and in thesis work (as described).
- Disciplinary punishment disqualifies for next semester; graduating batch is not awarded (as described).

Note: Scholarship schemes can have detailed definitions and exceptions. Applicants/students should consult the full AU Merit Scholarship Policy PDF for authoritative rules.
